

THE MANCHESTER LEAD MACHINE · 2026

154 verified leads — and a way to get 1000 more.

A ready-to-work list of real Greater Manchester businesses that need a better website, with phone numbers and socials — plus a simple system to generate unlimited leads yourself, from your phone.

How to use your 154-lead list

Your full list is the spreadsheet **manchester-leads.csv** — open it in Google Sheets or Excel on your phone. Here's the play:

- 1 Start with the ★ HOT leads.** 86 businesses have NO website of their own — that's a guaranteed opening. Filter the "Hot lead" column to HOT.
- 2 Call or WhatsApp the 99 with a phone number.** Use the phone pitch. For the rest, DM their Instagram/Facebook.
- 3 Work one area at a time.** Sort by Area and knock out Heald Green, then Chorlton, then Didsbury... or sort by Type to batch the same pitch (all barbers, all takeaways).
- 4 Use the "What to pitch" column.** It tells you the exact angle for each business's type — the thing their site is probably missing.
- 5 Track it.** Add a "Status" column: called / sent review / interested / won. Follow up within a day — that's where the money is.

An honest note

Every name, phone and social here is from real search results. I couldn't open the live sites from this tool to grade them, so the ★ hot leads (no site — verified) are your surest wins. For businesses that DO have a site, glance at it on your phone first (or screenshot it and send it to me) and I'll tell you exactly what's weak.

The Lead Machine — get 1000+ leads free

You don't need to pay for leads. This 10-minute method works entirely from your phone and never runs out.

Method 1 — the Google Maps sweep (best)

- Open **Google Maps**. Search "**barbers in Didsbury**" (swap the type & area).
- Tap each business. **If there's no "Website" button** — only Call/Directions — they have **no website**. That's a hot lead. 🎯
- Screenshot it (name + phone are right there). Move to the next.
- 10 minutes = 20+ leads. Repeat for takeaways, salons, gardeners, trades...

Method 2 — the "no-website tell"

If a business only shows up on **Just Eat, Booksy, Fresha, Treatwell, Checkatrade or Facebook** — and has no own domain — they almost always need a site. Browse those apps by area and note who has no website link.

Method 3 — screenshot & send

Found one with a website but not sure if it's any good? Screenshot the site (or its Google listing) and send it to me — I'll give you the exact weaknesses and what to pitch.

Scale to 1000+

5 areas × 6 business types × ~7 businesses = **200+ leads per session**. Do that a few times across Greater Manchester (there are 50+ areas) and you're well past 1000 — all free, all real.

WHAT TO LOOK FOR

Website check — spot the weakness in 30 seconds

Open any prospect's site on your phone and run down this list. Every "no" is a reason for them to hire you.

- ☐ Loads in under 3 seconds?
- ☐ Looks good on a phone?
- ☐ Has the padlock (HTTPS)?
- ☐ Phone number tap-to-call at top?
- ☐ Clear next step (book / order / quote)?
- ☐ Online booking or ordering?
- ☐ Real photos / a gallery?
- ☐ Reviews shown on the page?
- ☐ Looks current (not 2015)?
- ☐ Comes up on Google for their service?
- ☐ Social links that work?
- ☐ An offer or reason to act now?

The pitch by type (what's usually missing)

Barbers/Salons: online booking + gallery · **Takeaways:** own ordering (cut Just Eat fees) · **Restaurants:** bookings + menu + reviews · **Trades:** certifications + reviews + quote form · **Gardeners:** before/after gallery + quote form · **Florists/Shops:** online ordering + mobile checkout · **Taxis/Chauffeurs:** instant booking + fares · **Garages/MOT:** online booking + reminders · **Dentists:** treatment/fees + new-patient booking.

Google Business Profile (GBP) check

Often an easier, faster sale than a website — and it ties straight into your Care Plans. Search the business on Google and check their listing:

- ☐ Claimed & verified?
- ☐ Name, address, phone, hours right?
- ☐ Correct category?
- ☐ 10+ good photos?
- ☐ Services / products listed?
- ☐ Getting reviews — and replying?
- ☐ Posting offers / updates?
- ☐ Website link added?

How to pitch it

"I can set up and manage your Google listing so you show up in the map when people search '[service] near me' — that's often more valuable than the website itself, and I'll keep it fresh every month." → This is a perfect lead-in to a monthly **Care Plan**.

Why GBP wins deals

Most small businesses have a half-finished Google listing. Fixing it gets them visible in the local "map pack" fast — a quick, visible win that builds trust and opens the door to the bigger website project.

CALL THESE FIRST

Your top 30 hot leads (no website + phone)

Pulled from your full list — all have NO website of their own and a phone number ready to call. The other 56 hot leads are in the spreadsheet.
