Hi {{FIRST_NAME}},

Here's your **Small Business Website Checklist** — grab it here:  Download it now (billydigitals.com/free-website-checklist.html)

Do this: print it, open your website on your phone, and tick off what it already does. **Every box you can't tick is a customer slipping away.**

I'm Ali from Billy Digitals — I build fast, professional websites that turn visitors into paying customers. Over the next few days I'll send a few short tips (and you'll see the kind of work I do). No fluff, unsubscribe any time.

Reply any time — I read and answer every email myself.

The big mistake

SUBJECT This is why your website isn't bringing in work

PREVIEW It's not the design. It's this.

Hi {{FIRST_NAME}},

If your website looks okay but isn't bringing in enquiries, it's almost always the same problem: **no clear next step.**

A visitor lands, likes what they see... then thinks "okay, now what?" — and leaves. A confused visitor never becomes a customer.

Every page needs one obvious action: **Call now · Get a quote · Book online · Order here.** Big, clear, tappable.

Test yours now: open your homepage on your phone. In 3 seconds, is it obvious what to do next? If you hesitated, that hesitation is costing you money every week.

That's one of the first things I fix. Tomorrow I'll show you what "done right" looks like.

PREVIEW Real work, real results.

Hi {{FIRST_NAME}},

Talk is cheap — so let me show you instead. Here's the work: 👉 See my portfolio (billydigitals.com/portfolio.html)

Have a scroll — real websites and online stores, built fast, built to convert, built to get found on Google. You'll see the difference between a site that just sits there and one that actually brings in customers.

One example: a local heating & plumbing business came to me with a slow, dated site bringing in nothing. We rebuilt it — fast, mobile-perfect, SEO-ready, with a clear "get a quote" path. Now it pulls in real enquiries and carries glowing 5★ reviews.

Picture your business getting that. Want me to tell you honestly what's holding your current site back? Reply "REVIEW" and I'll do you a free, no-pressure site review.

⚙️ Set it up once — then it runs forever

- **Tool:** Brevo or MailerLite (free up to ~1,000 contacts).
- **Trigger:** contact added to your "Checklist Leads" list (your website checklist form adds them automatically).
- **Delays between emails:** 0 · 2 days · 4 days · 6 days · 9 days.
- **Merge tag:** {{FIRST_NAME}} — your tool swaps in each person's real first name.
- **Turn it ON.** Every checklist download now gets nurtured into an enquiry, automatically.

💡 **Hot-lead rule:** anyone who replies, take them out of the sequence and talk to them personally — that's a real lead ready to buy.
